Experience

Software Engineer · Full Stack (Vue.js / .NET) · **Ria Money Transfer**
Dec 2025 – Present
Santiago · Hybrid

- Shipped Track a Transfer, handling 4,000+ daily orders (357k+ since May) across international money transfers.
- Integrated Google Pay via Adyen into the WhatsApp flow, lifting conversion for Native Wallet users.
- Launched WhatsApp flow in the UK and Spain, driving early adoption in both new markets.
- Implemented compliance document upload on the Digital platform for B&M users.

Frontend Developer · Vue.js / PWA · **Andes**
Jun 2024 – Jul 2025
Remote · California

- Built and maintained a Vue.js PWA serving 5,000+ monthly users, focused on geolocation and seed-planting workflows for field samplers.
- Designed UX/UI helpers tailored for non-technical users, since the app was built for field samplers unfamiliar with digital tools.
- Configured CI/CD on Bitbucket and AWS CodePipeline with Cypress E2E tests, achieving 80%+ coverage.
- Automated PR review and changelog generation via AI agent, eliminating manual overhead from the release cycle.

Full Stack (Svelte / FastAPI / AWS) · **Niuro**
Jan 2024 – Jun 2024
Remote · Santiago

- Worked with a small team, leading sprint planning and delivery of a medical order management platform (LymphaPress).
- Deployed FastAPI services on AWS Lambda; serverless architecture cut infra costs while maintaining fault tolerance.

Software Engineer Intern · .NET / Angular / Azure · **IBM**
Jul 2023 – Jan 2024
Santiago · Hybrid

- Modernized two critical insurance apps during a CORE database migration (IBM Blue Journey) with zero downtime.
- Built BFF microservices in .NET Core with Angular frontends via REST; configured CI/CD in Azure DevOps.

Backend Programmer Intern · **Kwiyx**
Apr 2021 – Jul 2022
Santiago · Hybrid

- Built REST APIs (TypeScript, Express, Django) for a construction marketplace; deployed serverless on AWS Lambda + S3.

Personal Projects

- **Metro Metro** · Android app · 1,000+ downloads on Google Play
- **Euler 2** · Android app · 1,000+ downloads on Google Play
- **WTX Workout** · Local-first workout tracker Vue.js app (WIP)

Skills

Languages	TypeScript, Python, C#, SQL
Frontend	Vue.js, Svelte, Angular, PWA
Backend	.NET, FastAPI, Express, Node.js
Infra	AWS (Lambda, S3, CodePipeline), Azure DevOps, Docker, CI/CD
Spoken	Spanish (native) · English C2 (EF SET 78/100) · Portuguese (basic) · Russian (basic)

Certifications & Recognition

EF SET C2 Proficient 78/100 (Aug 2025)

1st Place · DefHacks Santiago (2019) · **Outstanding Student** · Universidad de Chile (2023) · **Platanus Build Night** · Top 20 of 100+ developers (Apr 2025) · **EducationUSA Academy Scholar** · U.S. Embassy

Education

B.Sc. Computer Engineering — Universidad de Chile
2020 – 2025
